Annual Natural Gas: \$	Gas Account Number		
Other (propane, woodstove) \$			
Total Annual Energy Costs \$			

For annual energy costs, add up 12 continuous months of bills, or call the utility company for the information.

Energy audits will be conducted by a certified energy auditor for qualifying small businesses. The program funds 75% of the cost of an energy audit, with 25% of the cost paid by the small business. Buildings intended for single or multi-family residences are not eligible.

A Small Business is defined as one which is resident in the State of New Mexico, independently owned and operated, and employs one hundred or less employees.

Energy efficiency improvements are an often overlooked cost-effective opportunity for small businesses. The energy audit and report will identify cost-effective energy saving measures that you can pursue to help reduce operating expenses, increase profit and increase the value of your building.

Educational materials will be provided along with the audit report, including utility company rebate programs, and energy efficiency and energy saving tips. In addition, a complete energy audit performed under this program can be used to apply for an USDA Energy Efficiency Improvement Grant, which can be filed at any time once you have the complete energy audit.

APPLICANT AUTHORIZATION – Signature verifies that applicant can and will pay 25% of the energy audit costs.
